

30-day average incidence per 100,000	Current 7-day average incidence	Change (%)
410.8	423.8	-3.2
274.2	277.5	-1.2
363.1	356.2	1.9

Most recent 7-day period average of incidence compared to previous 30-day period average. Note: Simulated dummy data not based on literature estimates of example pathogens.
